

Center Point-Urbana High School

Welcome to CPU Nation! We are located at 145 Iowa Street, Center Point, Iowa. This building was built in 2011. CPU High welcomes 9th, 10th, 11th, and 12th grade levels. Our location east of Interstate 380 gives us the most opportunities with us being just 15 minutes north of Cedar Rapids, 35 minutes north of Iowa City and 45 minutes south of Cedar Falls/Waterloo.

The mission of the Center Point-Urbana High School is to develop positive and productive individuals interested in life-long learning by providing a caring environment, a challenging curriculum and a dedicated staff.

We believe that...

- Education is a partnership of school, home and community.
- Respect is a cornerstone for learning.
- Diversity in individuals should be accepted and nurtured.
- Education thrives best in a positive, friendly environment.
- Open communication promotes understanding.
- What is best for students is best for education.

At the high school level we have over thirty five certified staff/teachers and over a dozen support staff who keep over 450 students engaging in learning. We hold a modified block schedule with a storm time scheduled at the end of the day to help students reassess and learn at their level. The student—teacher ratio is 13.4 to 1.

Fifty-eight credits are needed to graduate from CPU. Students may enroll in courses at eligible Post-secondary institutions. There are sixteen available college credit courses available at Kirkwood Community College in which our students take part in.

A major component of our high school curriculum revolves around student recognition and services which extend beyond the walls of the classroom. Traditional values in education, combined with an air of warmth and caring, support our belief that learning will only occur in a positive and rewarding environment.

Positive Climate Examples:

- ⇒ Educational Field Trips
- ⇒ Job Shadows & Internships
- ⇒ Service Learning Program
- ⇒ Dances
- ⇒ Talented & Gifted Program
- ⇒ Host ACT Testing
- ⇒ Advisory Program

In addition to academics, we have over thirty three co-curricular programs for students to get involved in. Student involvement is over 80%. Many will find one of their interests in at least one of the programs.
